## Unit One

### Important Expressions

started as a trainee	بدأ كمتدرب
do an interview	يقوم بمقابلة
a three- year apprenticeship	تدريب مهني لمدة 3 سنوات
do many voluntary jobs	يقوم بوظائف تطوعية كثيرة
apply for a job	يتقدم لوظيفة
my first paid job	وظفتي الأولى بأجر
about to close	عني وشك أن يفتق
give the impression	يعطي الانطباع

### Unit One Lessons 1 - 2

#### 1. A student reporter is interviewing a journalist

S. Reporter : How did you get into journalism?

Journalist : I started as a trainee **on a local newspaper** and after two weeks was chosen for a three-year apprenticeship.

S. Reporter : What advice can you give a student reporter like me?

Journalist : When you're doing an interview don't ask too many questions, let the person talk and always listen very carefully, give both sides of the story and make sure any facts or quotes are accurate. If you're writing a news story try to be objective and not to show your own feelings or opinions.

S. Reporter : Have you ever interviewed anyone famous?

Journalist : I've interviewed lots of celebrities **including** Amr Diab, Carmen Suleiman and Sandy.

S. Reporter : Who was the most annoying person you've interviewed?

Journalist : There have been quite a few; one was a very grumpy **well-known** actor.

S. Reporter : Is it a hard job?

Journalist : It can be sometimes but journalists usually love what they do.

S. Reporter : What kind of person does a good journalist have to be?

altFwok.com موقع التفوق

Journalist : You obviously have to be good at writing, but you also have to be a naturally nosy person and you really need to be interested in people.

S. Reporter : What advice would you give to young people listening who want to become journalists?

Journalist : Get some experience on the school newspaper or work for a local newspaper for free and don't give up, keep trying until someone gives you a chance. I did many voluntary jobs while I was at university and I applied for 18 jobs before I got my first paid job 12 years later. I'm still here.

Manal : Mom, Soha has broken the computer; it's not working.

Soha : I didn't break it, Manal.

Manal : But you used it last.

Soha : Yes, but it was already broken when I tried to use it.

Mom : Sorry girls, I forgot to say that it broke yesterday.

Dad : That computer is always breaking; we need a new one.

### Unit One Lessons 3 - 4

#### 1. A talk about media bias

So, moving on, what exactly is bias? First of all, let's look at bias by omission. This means leaving something out, for example, a fact or a quote which maybe doesn't support the writer's point of view.

Let's look at some examples; imagine Heba over here every morning checks the same website to read the news. She likes the way the articles are written and feels that she is getting good information, but one day her friend Marwa over here recommends a different news site. When Heba looks at this, she sees completely different news stories with a very different point of view. Let's say that on Heba's website there is a big story about how angry people are that a local factory is about to close. Marwa's website has the same story, but it doesn't mention that anyone is angry. The writer has omitted this information to make us feel differently about the story.

The second type of bias might be placement. On Heba's website the story is at the top of the page with a big photo and large text. This gives the impression that it is an important story, but on Marwa's website the story is very short on the third page and very low down on the page where people might not see it.

The third type of bias is spin. The writer tries to make the reader feel the same way they do about a topic and doesn't present a balanced point of view. They do this by choosing certain words, for example "argued the factory manager" instead of "agreed the factory manager". Secondly, they choose to include certain information and leave other information out. Thirdly, they give only one point of view. In our example, the journalist gives the reaction of the staff in the factory but not the managers. It misleads the reader into thinking it is a bad thing. On the other hand, in Marwa's story it is presented as a good thing. It mentions that there is a lot of pollution caused by the factory.

#### Unit Two Lessons 1 & 2

An interview with Mayar Sherif

Interviewer: How long had you been playing tennis when you played your first professional match?

Mayar : Let's think, I started when I was five so I had been playing for 15 years.

Interviewer : Had you ever competed on clay courts before you played at the ranch Open?

Mayar : No, it was the first time I had played on a clay court in a professional match.

Interviewer : Did you think you were going to win the match against Chloe?

Mayar : No, to be honest, before the match I hadn't been hitting the ball very well. The courts were fast and it was difficult. But little by little I had been playing better and by the time I played against her I felt confident.

A report about a handball player.

What's her dream?

In 2021 Fatma was 21. Before this time, Fatma had been playing top handball for many years. Before she went to university, Fatma had already played for the Egyptian youth team, the under-eighteens and before she graduated she had played for ... the under-twenties. She became one of the best women handball players in the country. In 2021, Egypt did not have a handball team for players over 21. When we spoke to Fatma, she said that in the past the country had spent a lot of money on the men's handball team, which helped it to become very successful. She hoped that the sports organisers would spend money on a women's team in the future. She also pointed out that in the past women had been very successful in other sports such as Hedaya Malak and Sara Ahmed who won medals at the 2016 Olympics. She said there was no reason women handball players could not do extremely well too. Let's hope that soon her dream will come true and that there will be an international Egyptian handball team for women over twenty one. We are sure that they will be very successful.

### Unit Two Lessons 3 - 4

A podcast about the Maadi STEM school in Cairo

**Why don't more girls study STEM subjects?**

Despite the fact that in most countries there are more girls at university than boys, fewer girls than boys complete STEM university degrees. More girls are in school today than ever before, but they don't always have the same opportunities as boys to choose the education or subjects they want. Too many girls are held back by gender biases, stereotypes and social norms and expectations which influence the subjects they study. Research has shown that
